The Association for Women in Mathematics
University of Kansas Student Chapter

Everyone is Invited!

Tuesday, September 13, 2016
4:00 PM
306 Snow Hall

*"*Applied Mathematics Across Borders*"*

Conversation with Dr. Agnieszka Miedlar

Dr. Agnieszka Miedlar is an Assistant Professor of Computational Mathematics in the Department of Mathematics. She completed her Master's (2007) in Computer Science at the Wroclaw University of Technology, Poland and received her PhD (2011) in Mathematics from the Technische Universität Berlin, Germany. She conducted her research at Technische Universität Braunschweig, EPF Lausanne and University of Minnesota. Her research focuses on applications of numerical linear algebra to other disciplines, in particular, engineering sciences, physics, ecology etc. In her presentation she will share both her experiences as a member of various international research projects and as a women pursuing a career in science.

Pizza will be served!
