

Student Chapter Meeting

Invited Speaker: **Naomi Khadavi**

Actuarial Analyst

General USA Life Reassurance Company

The Actuarial Profession and Educational System

Monday, October 1 at 3:00

Snow Hall 306

Naomi Khadavi received an MA degree from KU Math Department in 2005. Her master's Thesis: A Transformation-Retransformation Estimator of the Conditional Spatial Median under Advisor: Bozenna Pasik-Duncan was presented on April 26, 2005. With her mathematical education focused on stochastic modeling, Naomi enjoys a very successful career as an actuary. In her presentation Naomi will provide an important feedback from In her new experience as well as she will mentor and advice students with an interest in actuarial sciences.

**Pizza will be served.
Everyone is invited to attend.**
